Welcome from the President

The conferral of degrees is always the high point of the academic year—the culmination of our students’ intellectual and personal journeys. Families, friends, faculty, and staff have all played a central role in supporting our students’ education. Today, we celebrate this milestone for the graduates of our Class of 2020 and thank all those who have supported them along the way.

The deep bonds of loyalty and friendship that distinguish the Tufts community have been vital as we have faced the challenges of this spring together. Today, in response to these unprecedented circumstances, we confer degrees to our graduates virtually. But this crisis in no way diminishes the many achievements of this year’s graduates.

Today’s graduates arrived at Tufts with diverse backgrounds and perspectives. They have followed rigorous courses of study on our four Massachusetts campuses while enriching the life of our academic community. As Tufts students, many of them have studied or conducted research across this country and internationally. Many have also provided expert clinical care as part of their education. And they have brought our commitment to active citizenship to life through generous service to community, neighborhood, and governmental organizations.

The COVID-19 pandemic created unique difficulties for the final weeks and months during which these graduates finished their studies. They faced these challenges head on with resilience and grace, finishing course work through remote modalities, and in some cases even defending doctoral dissertations via Zoom. As active citizens, many have also been leading efforts within their communities, sharing their skills to support the response to the crisis. In April, we conferred degrees on 204 M.D. candidates from the School of Medicine, allowing these new physicians to enter the health care system almost a month earlier than usual.

I am overwhelmed with pride and gratitude at how members of the Tufts community have stepped up in these difficult times. And I look forward to welcoming this year’s graduates and their families and friends back to campus to celebrate in person when the pandemic is past.

Thank you for joining us in congratulating our graduates and wishing them all the best for the future.

Sincerely,

A handwritten signature in black ink that reads "Tony Monaco". The signature is written in a cursive, flowing style.

Dear Alma Mater

Leo R. Lewis A1887

*We con beside thy knee,
Dear Alma Mater,
Earth's book of mystery,
Dear Alma Mater,
We track the storied past,
Dear Alma Mater,
Over plains of learning vast,
Dear Alma Mater,
Speed on thy sunlit way,
Dear Alma Mater,
We vow new faith today,
Dear Alma Mater!
May glory light thy name,
Dear Alma Mater,
All thy children sing thy fame,
Dear Alma Mater, for aye!*

Academic Mace

Ceremonial maces were originally carried as a symbol of royal authority, dating back to the Middle Ages. The academic mace is a symbol of the authority invested in the president by the university's governing body. Tufts' mace is adorned with a medallion engraved with the official seal of the university and is carried before the president in academic processions in formal ceremonies such as commencement and inaugurations.

Academic Regalia

Traditional academic regalia has been worn by the Tufts faculty since the Commencement of 1906. The gown for the bachelor's degree has pointed sleeves and is designed to be worn closed. The master's gown has elbow-length, pointed sleeves; the doctor's gown has bell-shaped sleeves; both may be worn open or closed. The doctor's gown is faced, and the sleeves are trimmed with velvet. By its color and arrangement, the hood worn with the gown indicates the wearer's highest advanced degree, the field in which it was awarded, and the school from which it came. The lining of the hood carries the school's colors, brown and blue in the case of Tufts. The velvet edging on the hood, wider for the doctor's degree than for the master's degree,

Tuftonia's Day

Elliot Wright Hayes A1916

*Steady and true, rush along, Brown and Blue.
Raise a mighty score today.
Fearless tear down the field and never yield!
Brown and Blue, Brown and Blue for aye!
Hammer them hard, boys, and break through their guard.
That is old Tuftonia's way.
And our glorious banner once again will wave o'er
Tuftonia's Day.
T-u-f-t-s, T-u-f-t-s, Hurrah! Hurrah! for dear old Brown
and Blue!*

*Refrain:
Up on the Hill tonight all will be gay.
Victorious in the fight, we'll raise the standard of dear old
Tufts to glory!
Pile up a mighty score.
It's bound to soar.
Now one goal more!
Nothing can stop us; it's Tuftonia's Day.*

The mahogany stand displaying the mace was designed and built by students from Medford Vocational Technical High School and was presented to President Monaco in April 2015.

signifies by its color the field in which the degree was designated. Master of science and doctor of science hoods are trimmed in yellow; Engineering in orange; Medicine in green; Dental Medicine in lilac; Doctor of Philosophy in blue; and Veterinary Medicine in gray. The mortarboard or Oxford-type cap is the one usually worn, but of late, the soft cap, which resembles an oversized beret, has come into favor because of its comfort. Tassels, other than the universally accepted black, may indicate by the various colors the field of learning in which the degree is earned, while the gold tassel generally signifies a doctoral degree. Many foreign universities show great diversity, following traditions that extend back for centuries.

150TH COMMENCEMENT
School of Engineering

School of Arts and Sciences and School of Engineering

Although it was not possible for the School of Engineering and the School of Arts and Sciences, including the School of the Museum of Fine Arts at Tufts and the Graduate School of Arts and Sciences, to hold in-person ceremonies today for our undergraduate and graduate students, we are looking forward to having the opportunity to celebrate in person with the Class of 2020 in the future.

We want to confirm that the Commencement celebrations specific to AS&E graduates and families will be held in person on the Medford/Somerville campus when it is safe to do so. As always, these celebrations will include recognition of each student. They will also include a Commencement speaker and an in-person Baccalaureate Ceremony with an address by the Wendell Phillips speaker from the Class of 2020. We will provide the entire AS&E community with complete information about our planned celebrations as soon as possible.

For more information about those events, coverage of virtual events, and to watch our video messages to the graduates, please refer to commencement.tufts.edu.

Graduate School of Biomedical Sciences

Although it was not possible for the Graduate School of Biomedical Sciences (GSBS) to hold in-person ceremonies today, we are looking forward to having the opportunity to celebrate in person when gatherings are permitted.

I want to confirm that this event will combine our annual awards ceremony, recognition of our 2020 graduates, and hooding of our Ph.D. candidates. We will notify the entire GSBS community about our planned celebration as soon as possible.

For more information about those events, coverage of virtual events, and to watch my video message to the graduates, please refer to commencement.tufts.edu.

Sincerely,

A handwritten signature in black ink, appearing to read "Daniel Jay". The signature is fluid and cursive, with the first name "Daniel" and the last name "Jay" clearly distinguishable.

A Modern Hippocratic Oath (modified)

**By Louis Lasagna, M.D., Dean Emeritus, Graduate School of
Biomedical Sciences**

I swear to fulfill, to the best of my ability and judgment,
this covenant:

I will respect the hard-won scientific gains of those physicians in
whose steps I walk, and gladly share such knowledge as is mine
with those who are to follow.

I will apply, for the benefit of the sick, all measures, which
are required, avoiding those twin traps of over-treatment and
therapeutic nihilism.

I will remember that there is art to medicine as well as science,
and that warmth, sympathy, and understanding may outweigh
the surgeon's knife or the chemist's drug.

I will not be ashamed to say, "I know not," nor will I fail to call
in my colleagues when the skills of another are needed for a
patient's recovery.

I will respect the privacy of my patients, for their problems are not
disclosed to me that the world may know. Most especially must I
tread with care in matters of life and death.

I will remember that I do not treat a fever chart, or a cancerous
growth, but a sick human being, whose illness may affect the
person's family and economic stability. My responsibility includes
these related problems, if I am to care adequately for the sick.

I will prevent disease whenever I can, for prevention is preferable
to cure.

I will remember that I remain a member of society, with special
obligations to all my fellow human beings, those sound of mind
and body, as well as the infirm.

If I do not violate this oath, may I enjoy life and art, respected
while I live and remembered with affection thereafter.

May I always act so as to preserve the finest traditions of my
calling and may I long experience the joy of healing those who
seek my help.

An Oath for the Dental Graduate

I solemnly pledge to devote my efforts to the care of my patients.

As a member of society, with special obligations, I will treat all patients without prejudice, incorporating the knowledge and skills instilled in me by my teachers.

I will practice dentistry in an ethical and professional manner.

I will hold in confidence all matters related to them.

I will not hesitate to call upon my colleagues when their knowledge and skills are needed.

I will make every effort to maintain, contribute to, and enhance the quality of the dental profession.

I will constantly keep in mind that the practice of dentistry is a true mingling of science, technology, and caring.

Veterinarian's Oath

Being admitted to the profession of veterinary medicine,
I solemnly swear to use my scientific knowledge and skills for
the benefit of society through the protection of animal health
and welfare, the prevention and relief of animal suffering,
the conservation of animal resources, the promotion of public
health, and the advancement of medical knowledge.

I will practice my profession conscientiously, with dignity,
and in keeping with the principles of veterinary medical ethics.

I accept as a lifelong obligation the continual improvement of
my professional knowledge and competence.

Jonathan M. Tisch College of Civic Life

Jonathan M. Tisch College of Civic Life

Presidential Awards/2020 *Honos Civicus* Inductees

The only university-wide college of its kind, the Jonathan M. Tisch College of Civic Life studies and promotes the civic and political engagement of young people at Tufts University, in our democracy, and around the world. Tisch College is proud to celebrate its 20th anniversary in 2020.

Tisch College supports an undergraduate major in Civic Studies and offers innovative courses, programs, and partnerships, including the Tisch Scholars Program, the Tufts 1+4 Bridge Year, the Tufts Civic Semester, and the Tisch Summer Fellows Program. Tisch College houses two non-partisan, independent research organizations that together are the leading authority on the civic and political engagement of young people: the Center for Information & Research on Civic Learning and Engagement (CIRCLE) and the Institute for Democracy & Higher Education (IDHE).

Each year, Tisch College honors and publicly recognizes graduating students across the university who have excelled in civic engagement with the Presidential Award for Civic Life and induction into the *Honos Civicus* Society.
