Welcome from the President

Commencement is the high point of the academic year and has always been a special day at Tufts. While this year's virtual celebration makes us less anxious about the weather forecast, this moment is no less extraordinary and no less distinguished.

After a period of rigorous study, intellectual pursuit, and personal growth, our students stand ready to graduate from their respective academic programs and this great university. Today, we celebrate their achievements and recognize all those who have helped make this day possible.

I do not need to remind you of the challenges this past year has brought for our graduates. They have navigated changing guidelines and varied forms of instruction. They have practiced personal discipline amidst restrictive recommendations. And they have overcome bouts of emotional and mental fatigue and loneliness. All of our graduates have also experienced some form of loss. However, through it all, they have shown grace and resilience that have led to the triumph of this day.

As we confer their degrees today, it is important to recognize the role of all those who have supported these students to reach this moment of success during this particularly trying year. The family members, friends, faculty, and staff who have all worked together to ensure that these graduates were well-equipped to address the myriad challenges in their path, not only this past year but during their entire time at Tufts, deserve our thanks and appreciation.

Today's graduates arrived at Tufts with diverse backgrounds, perspectives, and experiences. As they pursued rigorous courses of study, they also acted as agents of social change who have left their mark on this university and will undoubtedly leave their mark on our society soon after they have departed our campuses.

Finally, I would be remiss if I did not acknowledge the high standards today's graduates have set during their time at Tufts. Their resourcefulness in navigating unforeseen circumstances, caring for and lifting each other up, and fighting for the rights of all those who are marginalized in our society have set the bar high for future generations of students. We are proud of you and how you have lived your lives as members of the Tufts community.

Congratulations to our graduates. I wish all of you the very best and look forward to welcoming you back on campus as alumni.

Sincerely,

A handwritten signature in black ink that reads "Tony Monaco". The signature is written in a cursive, flowing style.

Anthony P. Monaco
President

Conferring of Degrees in Course	Nadine Aubry, <i>Provost and Senior Vice President</i> Peter R. Dolan, <i>Chairman, Board of Trustees</i>
Remarks	Peter R. Dolan, <i>Chairman, Board of Trustees</i>
Closing	Anthony P. Monaco, <i>President of the University</i>
Benediction	Imam Abdul-Malik Merchant, <i>Muslim Chaplain</i>

University Commencement

Dear Alma Mater

Leo R. Lewis A1887

*We con beside thy knee,
Dear Alma Mater,
Earth's book of mystery,
Dear Alma Mater,
We track the storied past,
Dear Alma Mater,
Over plains of learning vast,
Dear Alma Mater,
Speed on thy sunlit way,
Dear Alma Mater,
We vow new faith today,
Dear Alma Mater!
May glory light thy name,
Dear Alma Mater,
All thy children sing thy fame,
Dear Alma Mater, for aye!*

Academic Mace

Ceremonial maces were originally carried as a symbol of royal authority, dating back to the Middle Ages. The academic mace is a symbol of the authority invested in the president by the university's governing body. Tufts' mace is adorned with a medallion engraved with the official seal of the university and is carried before the president in academic processions in formal ceremonies such as commencement and inaugurations.

Academic Regalia

Traditional academic regalia has been worn by the Tufts faculty since the Commencement of 1906. The gown for the bachelor's degree has pointed sleeves and is designed to be worn closed. The master's gown has elbow-length, pointed sleeves; the doctor's gown has bell-shaped sleeves; both may be worn open or closed. The doctor's gown is faced, and the sleeves are trimmed with velvet. By its color and arrangement, the hood worn with the gown indicates the wearer's highest advanced degree, the field in which it was awarded, and the school from which it came. The lining of the hood carries the school's colors, brown and blue in the case of Tufts. The velvet edging on the hood, wider for the doctor's degree than for the master's degree,

Tuftonia's Day

Elliot Wright Hayes A1916

*Steady and true, rush along, Brown and Blue.
Raise a mighty score today.
Fearless tear down the field and never yield!
Brown and Blue, Brown and Blue for aye!
Hammer them hard, boys, and break through their guard.
That is old Tuftonia's way.
And our glorious banner once again will wave o'er
Tuftonia's Day.
T-u-f-t-s, T-u-f-t-s, Hurrah! Hurrah! for dear old Brown
and Blue!*

Refrain:

*Up on the Hill tonight all will be gay.
Victorious in the fight, we'll raise the standard of dear old
Tufts to glory!
Pile up a mighty score.
It's bound to soar.
Now one goal more!
Nothing can stop us; it's Tuftonia's Day.*

The mahogany stand displaying the mace was designed and built by students from Medford Vocational Technical High School and was presented to President Monaco in April 2015.

signifies by its color the field in which the degree was designated. Master of science and doctor of science hoods are trimmed in yellow; Engineering in orange; Medicine in green; Dental Medicine in lilac; Doctor of Philosophy in blue; and Veterinary Medicine in gray. The mortarboard or Oxford-type cap is the one usually worn, but of late, the soft cap, which resembles an oversized beret, has come into favor because of its comfort. Tassels, other than the universally accepted black, may indicate by the various colors the field of learning in which the degree is earned, while the gold tassel generally signifies a doctoral degree. Many foreign universities show great diversity, following traditions that extend back for centuries.

Recipients of Honorary Degrees

With a distinguished career in service to country that began during her years as an undergraduate student on the Hill, Major General **MARIA B. BARRETT**, J88, is today the commanding general of the U.S. Army Network Enterprise Technology Command (NETCOM) at Fort Huachuca, Arizona, where her organization secures, operates, and defends the U.S. Army's global enterprise networks. Her keen understanding of military tactics and her expertise in communications ensure information superiority and freedom of access to the network in all phases of military operations.

Barrett began her military career as a second lieutenant in Tufts University's Army ROTC program. She served in the Gulf War as a first lieutenant and platoon leader. She also served in both Kuwait, as a colonel in support of Operation Iraqi Resolve, as well as in the war in Afghanistan. Promoted in 2015 to brigadier general, she joined the Army Cyber Command, where she was responsible for Department of Defense information networks, military cyberspace operations, and U.S. freedom of action in cyberspace.

A recipient of the Bronze Star Medal, the Defense Superior Service Medal, and the Legion of Merit, Barrett has earned numerous decorations and awards. In addition to her bachelor of arts degree in international relations from Tufts, she also holds a master of science degree in national resource strategy from Industrial College of the Armed Forces (now the Dwight D. Eisenhower School for National Security and Resource Strategy), and a master of arts degree in telecommunications management from Webster University.

In a milestone for the U.S. Army, Barrett and her sister, Brigadier General Paula Lodi, have been recognized by the Army as the first pair of sisters in the history of the service to become generals.

Barrett will receive an honorary Doctor of Public Service degree.

Physician, medical researcher, and academician **WILLIAM BAZEYO** is a tireless advocate for interdisciplinary One Health education in Africa. As professor of occupational medicine at Uganda's Makerere University, he has served the university in a variety of roles over the years, including as deputy vice chancellor and dean of the school of public health.

Bazeyo brings expertise to bear on tackling the most daunting challenges in his nation and region. He has

contributed his innovative leadership to One Health initiatives across central and eastern Africa and to the support of government efforts to control tobacco use. Beneficiaries of his efforts include ResilientAfrica Network, which leverages science and technology to strengthen the resilience of African communities against natural and manmade stresses, and the Monitoring and Evaluation Technical Support Program, which employs an evidence-based approach as part of Uganda's response to HIV. Bazeyo's work has been funded by USAID, the Centers for Disease Control, and the Bill and Melinda Gates Foundation, among others.

Bazeyo is also active globally, including playing a critical role in Strategies to Prevent Spillover, a five-year program led by Tufts to strengthen institutions in countries across Africa and Asia as they curb the risk and spread of zoonotic spillover. Most recently, Bazeyo was a member of the team of Ugandan scientists who invented a homemade COVID-19 rapid-testing kit, now being used in schools and hard-to-reach parts of the country.

He also chairs several professional boards and committees both in Uganda and regionally, including Uganda's National Research and Innovation Fund under the Ministry of Science, Technology, and Innovation. He is a recipient of Uganda's highest civilian honor, the Gold Medal.

Bazeyo holds a bachelor of medicine and bachelor of surgery degree from Makerere University, a master of medicine degree with a specialty in occupational health from the National University of Singapore, and a Ph.D. from Atlantic International University.

Bazeyo will receive an honorary Doctor of Science degree.

STACEY B. GABRIEL is pushing the boundaries of the genomic frontier as senior director of the Genomics Platform at Broad Institute of MIT and Harvard. Under her far-sighted guidance, the Genomics Platform is one of the largest gene-sequencing centers in the world as it explores and defines the future of genomics technology. Her early work provided foundational research for the International HapMap Project, which created a map of the human genome by haplotype (that is, by groups of genes inherited together from a single parent).

A major focus of her research is using genomic techniques to understand the genetic basis of common diseases. She has served on the steering committee for the 1000 Genomes Project, the world's largest public catalog of human variation

Recipients of Honorary Degrees

and genotype data; the landmark Cancer Genome Atlas; and the National Heart, Lung, and Blood Institute's TOPMed program, which targets disease treatments tailored to an individual's unique genes and environment.

In response to the COVID-19 pandemic, Gabriel developed and executed the viral diagnostic effort of the Broad Institute. Under her leadership, the lab rapidly became the largest testing lab in New England, and one that also contributes substantially to testing numbers for the entire nation. Tufts is one of the many communities that has benefited from the lab's robust testing output, allowing for enhanced infection-rate monitoring and keeping transmission numbers low. For having helped to set a new standard for COVID-19 testing, she was named by *The Boston Globe* in 2020 as a "Bostonian of the Year."

Gabriel has been recognized by Clarivate Analytics six years in a row as one of the world's most highly cited scientists in molecular biology and genetics. She received a bachelor of science in molecular biology from Carnegie Mellon University and a Ph.D. in human genetics from Case Western Reserve University.

Gabriel will receive an honorary Doctor of Science degree.

A widely acclaimed public interest lawyer, **BRYAN STEVENSON** has dedicated his career to helping the poor, the incarcerated, and the condemned. He is the founder and executive director of the Equal Justice Initiative (EJI), a human rights organization in Montgomery, Alabama. Under his leadership, EJI has won major legal challenges eliminating excessive and unfair sentencing, exonerating innocent death row prisoners, confronting abuse of the incarcerated and the mentally ill, and aiding children prosecuted as adults.

Stevenson found his calling while a student at Harvard Law School when he worked for Stephen Bright's Southern Center for Human Rights, which provides representation for death row inmates throughout the American south. He joined the Atlanta-based center full-time upon his Harvard graduation in 1985. In 1989, he moved to Alabama to run a branch of the center in Montgomery, which would become EJI.

At the time of EJI's founding, Alabama was the only state that did not provide legal assistance to people on death row, and still has no statewide public defender program. The cause of people sentenced to the death penalty became more dire in 1995 after Congress eliminated funding for death-penalty defense for lower-income people. Through

EJI, Stevenson guaranteed a defense to anyone in Alabama sentenced to the death penalty.

Stevenson has argued and won multiple cases at the United States Supreme Court, including a 2019 ruling protecting condemned prisoners who suffer from dementia and a landmark 2012 ruling that banned mandatory life-imprisonment-without-parole sentences for all children 17 or younger. He and his staff have won reversals, relief, or release from prison for more than 135 wrongly condemned prisoners on death row and won relief for hundreds of others wrongly convicted or unfairly sentenced.

Dedicated to anti-poverty and anti-discrimination efforts, Stevenson led the creation of two highly acclaimed cultural sites that opened in 2018 in Montgomery: the Legacy Museum and the National Memorial for Peace and Justice. These new national landmark institutions chronicle the legacy of slavery, lynching, and racial segregation, and the connection to mass incarceration and contemporary issues of racial bias.

A MacArthur Foundation "Genius" Prize recipient, Stevenson has received numerous awards and medals for his work in civil rights and international human rights. He was inducted into the American Academy of Arts and Sciences in 2014 and won the Lannan Cultural Freedom Prize, which is awarded for a lifetime of remarkable achievement.

He is the author of the critically acclaimed *New York Times* bestseller, *Just Mercy*, which was recently adapted as a major motion picture. A graduate of Harvard Law School and the Harvard Kennedy School, Stevenson is also a professor of law at the New York University School of Law.

Stevenson will receive an honorary Doctor of Laws degree.

Raised in a dairy-farming family in a small village in eastern Turkey, **HAMDİ ULUKAYA** is the founder and CEO of Chobani. In fewer than five years of its founding, Chobani became the top-selling Greek yogurt brand in the United States—and an organization that has been lauded as a "Change the World" company by *Forbes*. Other honors for the company include a Salute to Greatness Award by The Martin Luther King Jr. Center for Nonviolent Social Change and its having been named one of the Best Places to Work for LGBTQ Equality by the Human Rights Campaign.

Ulukaya has a vision for industry leadership imbued with compassion and humanitarianism. From the beginning, Chobani has donated a portion of its profits to charitable causes, many of them in Idaho and New York, where its products are made. A champion of reducing

Recipients of Honorary Degrees

income and wealth inequality nationwide, Ulukaya raised the starting hourly wage to at least \$15 an hour—more than double the federal minimum wage. He also took the rare step in manufacturing of instituting a six-week, fully paid parental leave program for all mothers and fathers employed by the company.

In 2016, Ulukaya launched the Chobani Food Incubator to mentor and support socially responsible food entrepreneurs and further the company's commitment to food accessibility. Ulukaya also founded the Tent Partnership for Refugees to mobilize the private sector to improve the lives and livelihoods of the more than 25 million refugees around the globe. He also signed the Giving Pledge and committed the majority of his personal wealth to the cause. For these efforts, he was named an Eminent Advocate by the United Nations Refugee Agency and received the United Nations Foundation Global Leadership Award, among other honors.

Ulukaya sits on the board of Catalyst, a nonprofit dedicated to building inclusive workplaces for women and is a member of B Team, a collective of global leaders working to inspire dialogue and business action for a fairer, greener, and more human economy. An avid fan of independent films and the Turkish soccer team Fenerbahce, Ulukaya lives in New Berlin, New York.

Ulukaya will receive an honorary Doctor of Humane Letters degree.

A member of the Tohono O'odham Nation, educator and activist **OFELIA ZEPEDA** has dedicated her career to the preservation of O'odham (the language spoken by the Tohono O'odham, Akimel O'odham, and Hia C-ed O'odham) and its culture. She co-founded and directs the American Indian Language Development Institute at the University of Arizona, where she is a Regents' Professor of Linguistics. Through the institute, Zepeda has worked with more than 2,000 students—Native American language educators, researchers, advocates, and activists, most of whom return to their tribal communities.

A powerful voice for the reclamation and preservation of Indigenous tongues and for ensuring the rights of Indigenous peoples to speak their languages, Zepeda was nominated to serve on the international taskforce for the UNESCO International Decade of Indigenous Languages (2022–2032), as the group's sole representative for the Indigenous people of the United States. Her advocacy is credited as helping drive forward the Native American Languages Act of 1990,

a law that has inspired others to revitalize and support Indigenous languages around the world.

For a lifetime of work devoted to education about, maintenance of, and recovery of languages belonging to Indigenous people, she has been awarded a MacArthur Fellowship.

Zepeda is the author of three books of poetry: *Ocean Power: Poems from the Desert*, *Jewed I-Hoi/Earth Movements*, and *Where Clouds Are Formed*. She also wrote *Tohono O'odham Grammar* and co-edited *Home Places*, a celebration of 20 years of publication of the Sun Tracks series, a book series publishing Native American authors. Her poems and essays have appeared in numerous anthologies and journals, and her work was recently published in *When the Light of the World Was Subdued, Our Songs Came Through*, edited by U.S. Poet Laureate Joy Harjo.

Zepeda will receive an honorary Doctor of Letters degree.

41ST COMMENCEMENT
Graduate School of
Biomedical Sciences

School of Medicine

Order of Events

Musical Prelude

Welcome

Peter W. Bates, M.D., *Dean ad interim*

Presentation of Faculty Emeritus Certificates

Peter W. Bates, M.D., *Dean ad interim*

Recipients:

Michael Jacob Barza, M.D., B.Sc., *Professor of Medicine*

In Sup Choi, M.D., *Professor of Radiology*

Mark S. Drapkin, M.D., *Professor of Medicine*

Alan S. Kopin, M.D., *Professor of Medicine*

Lee S. Perrin, M.D., *Clinical Associate Professor of Anesthesiology
and Perioperative Medicine*

Medical Class President Address

S. Spencer Scott IV, *M.D. Degree Candidate*

Keynote Address

Pritesh Gandhi, M.D., M.P.H., Ao4, M11, *Chief Medical Officer,
Department of Homeland Security*

Recognition of M.D./M.B.A. Candidates

Amy B. Kuhlik, M.D., *Dean of Student Affairs*

Recognition of M.D./M.P.H. Candidates

Amy B. Kuhlik, M.D., *Dean of Student Affairs*

Recognition of Maine Track Candidates

Amy B. Kuhlik, M.D., *Dean of Student Affairs*

Recognition of M.D. Candidates

Amy B. Kuhlik, M.D., *Dean of Student Affairs*

Recognition of M.D./Ph.D. Candidates

Amy B. Kuhlik, M.D., *Dean of Student Affairs*

Administration of Modern Hippocratic Oath

Jeffrey T. Cooper, M.D., *Associate Professor of Surgery*

Closing

Peter W. Bates, M.D., *Dean ad interim*

Musical Recessional

A Modern Hippocratic Oath (modified)

**By Louis Lasagna, M.D., Dean Emeritus, Graduate School of
Biomedical Sciences**

I swear to fulfill, to the best of my ability and judgment,
this covenant:

I will respect the hard-won scientific gains of those physicians in
whose steps I walk, and gladly share such knowledge as is mine
with those who are to follow.

I will apply, for the benefit of the sick, all measures, which
are required, avoiding those twin traps of over-treatment and
therapeutic nihilism.

I will remember that there is art to medicine as well as science,
and that warmth, sympathy, and understanding may outweigh
the surgeon's knife or the chemist's drug.

I will not be ashamed to say, "I know not," nor will I fail to call
in my colleagues when the skills of another are needed for a
patient's recovery.

I will respect the privacy of my patients, for their problems are not
disclosed to me that the world may know. Most especially must I
tread with care in matters of life and death.

I will remember that I do not treat a fever chart, or a cancerous
growth, but a sick human being, whose illness may affect the
person's family and economic stability. My responsibility includes
these related problems, if I am to care adequately for the sick.

I will prevent disease whenever I can, for prevention is preferable
to cure.

I will remember that I remain a member of society, with special
obligations to all my fellow human beings, those sound of mind
and body, as well as the infirm.

If I do not violate this oath, may I enjoy life and art, respected
while I live and remembered with affection thereafter.

May I always act so as to preserve the finest traditions of my
calling and may I long experience the joy of healing those who
seek my help.

Candidates for Degrees

Master of Science

Ambalavanan Arunachalam*

Clinical and Translational Science

Thesis: Predicting Survival in Combined Post- and Pre-capillary Pulmonary Hypertension Associated with Heart Failure and Preserved Ejection Fraction

Advisor: Jessica Paulus, Sc.D.

Margaret M. Byrne

Clinical and Translational Science

Thesis: Immune-Related Adverse Events in Cancer Patients Being Treated with Immune Checkpoint Inhibitors

Advisor: Susan Parsons, M.D.

Erin Flanagin

Clinical and Translational Science

Thesis: Muscle-Related Determinants of Serum Filtration Markers and their Association with GFR Estimating Equation Performance in Older Adults

Advisor: Lesley Inker, M.D.

Heather Margaret Grant

Clinical and Translational Science

Thesis: Racial and Ethnic Disparities in the Surgical Management and Outcomes of Colorectal Cancer in the Non-Elective Setting

Advisor: Angie Mae Rodday, Ph.D.

Zixuan Hao

Pharmacology and Drug Development

Thesis: Investigating RBPJ Function in LPS-Dependent Necroptosis Pathway

Advisor: Alexei Degterev, Ph.D.

Michael Martin Jonczyk*

Clinical and Translational Science

Thesis: Predictive Model Assessing Acute Post-Operative Complications in Breast Cancer Interventions

Advisor: Karen Freund, M.D., M.P.H.

Ian Langer

Pharmacology and Drug Development

Thesis: Maturation of scFv 80r for the Neutralization of SARS-CoV-2 RBD Using Ribosome Display

Advisor: Andrew Bohm, Ph.D.

Siyu Li

Pharmacology and Drug Development

Thesis: The Mechanism of Remdesivir Inhibition of Propranolol Metabolism Using an *in vitro* Model

Advisors: David Greenblatt, M.D. & James Baleja, Ph.D.

Weiyu Lin

Pharmacology and Drug Development

Thesis: Mixed Lineage Kinase 3 (MLK3) Modulates Blood Pressure Through its CRIB Domain, and Exerts Cardiac Myocyte Specific, Blood Pressure Independent Effects on Left Ventricular Structure and Function

Advisor: Robert Blanton, M.D.

Qianni Ma

Pharmacology and Drug Development

Thesis: Identification of *Babesia microti* Diagnostic Antigens Using Phage Display cDNA Library Screening

Advisor: Athar Chishti, Ph.D.

Helia Mojahed Yazdi

Pharmacology and Drug Development

Thesis: Noninvasive Intranasal GDNF Gene Therapy as a Novel Treatment Approach for Neurodegenerative and Other Dopamine-Associated Disorders

Advisors: Emmanuel Pothos, Ph.D. & Alexei Degterev, Ph.D.

Olukeyede Oye

Pharmacology and Drug Development

Thesis: The Role of Membrane Palmitoylated Protein (MPP1) in Intracellular Cholesterol Trafficking and Development

Advisor: Athar Chishti, Ph.D.

Xi Qian*

Clinical and Translational Science

Thesis: Association of Stool Bile Acid Profiles with *Clostridioides difficile* Infection Treatment Regimens and Related Changes in the Gut Microbiota

Advisor: Cheleste Thorpe, M.D.

Yue Shu

Pharmacology and Drug Development

Thesis: Effects of Azithromycin and Ghrelin on Treating IL-1 β Induced Synoviocytes

Advisors: Li Zeng, Ph.D. & David Greenblatt, M.D.

Lingbo Song

Pharmacology and Drug Development

Thesis: Two Strategies for HIV-Specific Recombinase Library Evolution Through Structure Optimizing

Advisor: Andrew Bohm, Ph.D.

Kevin Liching Su

Pharmacology and Drug Development

Thesis: The Role of Plasma Membrane V-ATPases in Breast Cancer Metastasis

Advisors: Michael Forgac, Ph.D. & James Baleja, Ph.D.

Tianyi Tao

Pharmacology and Drug Development

Thesis: The Role of Human *SLC19A3*-Mediated Intestinal Absorption in Thiamine Metabolism

Advisor: Andrew Greenberg, M.D.

Urvi Kirankumar Vani

Pharmacology and Drug Development

Thesis: Real-Time Detection of Dopamine Kinetics in Opioid-Dependent Rats Following Treatment with Intranasal GDNF DNA

Advisors: Emmanuel Pothos, Ph.D. & Amy Yee, Ph.D.

Shiyun Wang

Pharmacology and Drug Development

Thesis: Examining the Modes of Activity of Novel Pro-Death Molecules

Advisor: Alexei Degterev, Ph.D.

*August 2020 ***February 2021

†Alpha Omega Alpha Honor Society

Graduate School of Biomedical Sciences

Candidates for Degrees

Doctor of Philosophy

Abdo Abou-Slaybi***

Immunology

Dissertation: Melanocortin Receptor-4 Regulates Expression of Angiostatic Molecules in pDCs through NF- κ B Signaling

Advisor: Pedram Hamrah, M.D.

Roaya Salim Alqurashi*

Pharmacology and Experimental Therapeutics

Dissertation: A New Molecular Mechanism Underlying Epileptogenesis, and a Novel Therapeutic Strategy for Treating Epilepsy

Advisor: Amy Yee, Ph.D.

Dominique Ameroso

Neuroscience

Dissertation: BDNF-TrkB.T1 Signaling in Ventromedial Hypothalamus Astrocytes is Critical for Energy and Glucose Balance Control

Advisor: Maribel Rios, Ph.D.

Kelsey Anne Barrasso***

Molecular Microbiology

Dissertation: Defining the Impacts of Quorum Sensing Interference and Gut Microbe Interaction on *Vibrio cholerae* Pathogenesis

Advisor: Wai-Leung Ng, Ph.D.

Aaron Samuel Bernstein*

Cellular and Molecular Physiology

Dissertation: Non-Exosomal Soluble Extracellular Hsp90 (S-eHsp90) Enhances Breast Cancer Cell Motility

Advisor: Daniel Jay, Ph.D.

Robert Jeffrey Blakemore***

Molecular Microbiology

Dissertation: Observing HIV-1 5'UTR Dimerization with Alternating Laser Excitation Single Molecule FRET

Advisor: James Munro, Ph.D.

Michael Patrick Collins***

Cell, Molecular, and Developmental Biology

Dissertation: Regulation of V-ATPases in Amino Acid Sensing and Function of Subunit α Isoforms in Breast Cancer Growth and Metastasis

Advisor: Michael Forgac, Ph.D.

Bethany Ann Delcuze*

Cellular and Molecular Physiology

Dissertation: Discovering the Dynamic Interplay of Tumor Associated Macrophages and Microglia in the Glioblastoma Tumor Microenvironment

Advisor: Alain Charest, Ph.D.

Jaymes Robert Farrell*

Genetics

Dissertation: The Impact of AKT Isoforms on Senescence Induced by CDK4/6 Inhibition in Melanoma

Advisor: Philip Hinds, Ph.D.

Angela Rachel Howard*

Molecular Microbiology

Dissertation: Characterization of Ebola Virus Glycoprotein Conformational Dynamics using Single-Molecule FRET

Advisor: James Munro, Ph.D.

Soyoon Hwang*

Biochemistry

Dissertation: Development of Ultrasensitive Protein Assays Toward Early Diagnosis of Neurological Diseases—From Mild Traumatic Brain Injury to Alzheimer's Disease

Advisor: David Walt, Ph.D.

Michael J. Hyde***

Cell, Molecular, and Developmental Biology

Dissertation: The Effects of Hyperlipidemia on Regulatory T Cells

Advisor: John Iacomini, Ph.D.

Andrea Noelle Wong Lim

Molecular Microbiology

Dissertation: Two ICP2 Bacteriophage Proteins Mediate Interactions with *Vibrio cholerae* OmpU

Advisor: Andrew Camilli, Ph.D.

Allison Jessica Matthews***

Molecular Microbiology

Dissertation: Genetic Dissection of Desiccation Tolerance, Carbon Catabolite Repression, and Protein Vaccine Candidates in *Streptococcus pneumoniae*

Advisor: Andrew Camilli, Ph.D.

Hayley Irene Muendlein*

Genetics

Dissertation: A Complex Tale: Three Stories of Cell Death and Inflammation Downstream of TRIF

Advisor: Alexander Poltorak, Ph.D.

Kathleen Teresa Nevola***

Cell, Molecular, and Developmental Biology

Dissertation: Genetic and miRNA Associations Underlying Beta-Blocker Effects on Bone Mineral Density

Advisor: Christine Lary, Ph.D.

Giang Thu Nguyen*

Immunology

Dissertation: SKAP2 Mediates Productive Neutrophil Antimicrobial Functions in Innate Immunity

Advisor: Joan Meccas, Ph.D.

Njabulo Brian Ngwenyama*

Immunology

Dissertation: Adaptive Immune Mechanisms Underlying Maladaptive Cardiac Remodeling in Pressure Overload Induced Heart Failure

Advisor: Pilar Alcaide, Ph.D.

Graduate School of Biomedical Sciences

Candidates for Degrees/Candidates for Combined Degrees

Minagi Ozawa***

Neuroscience

Dissertation: Amygdala-Prefrontal Oscillatory States Govern the Retrieval of Fear and Extinction Memories

Advisor: Leon Reijmers, Ph.D.

Miriam Sofia Ramliden

Molecular Microbiology

Dissertation: Identifying Targets of Cycling GMP-AMP Signaling in *Vibrio cholerae*

Advisor: Wai-Leung Ng, Ph.D.

Surendra Kumar Sharma*

Biochemistry

Dissertation: The Role of Host Cellular Long Noncoding RNAs in Human Papillomavirus-Associated Pathogenesis

Advisor: Karl Munger, Ph.D.

Lauren M. Shull

Molecular Microbiology

Dissertation: Characterization of Transient Hyperinfectivity and of the *vieSAB* Operon in *Vibrio cholerae* El Tor

Advisor: Andrew Camilli, Ph.D.

Rebecca J. Silver*

Immunology

Dissertation: The Impact of the Tissue Microenvironment on Neutrophil–*Klebsiella pneumoniae* Interactions During Lung Infection

Advisor: Joan Mecsas, Ph.D.

Alan Tien Yeo***

Cell, Molecular, and Developmental Biology

Dissertation: Tumor Genotypes of EGFR-driven Glioblastoma Dictate Diverse Immune Landscapes Which Confers Selective Responses to Checkpoint Blockade Immunotherapy

Advisor: Alain Charest, Ph.D.

Doctor of Medicine and Doctor of Philosophy

David Alec Dickson†

Neuroscience

Dissertation: Sperm miRNA as Potential Mediators of the Transgenerational Effects of Stress

Advisor: Larry Feig, Ph.D.

Craig William Hanna

Cell, Molecular, and Developmental Biology

Dissertation: Medial and Lateral Supporting Cells Preferentially Adopt Inner and Outer Hair Cell Fate Respectively

Advisor: David Kaplan, Ph.D.

Jenny Bryne Koenig†

Neuroscience

Dissertation: The Glycolytic Inhibitor 2-Deoxyglucose as a Novel Therapeutic Agent to Prevent Cortical Network Dysfunction after Traumatic Brain Injury

Advisor: Chris Dulla, Ph.D.

Mary Elizabeth Moss†

Cell, Molecular, and Developmental Biology

Dissertation: The Sex- and Cell Type-Specific Roles of Vascular Mineralocorticoid Receptors in Regulating Vascular Inflammation in Atherosclerosis

Advisor: Iris Jaffe, M.D., Ph.D.

Frank Anthony Scangarello

Immunology

Dissertation: ADAP Regulates the Formation of SLP-76 Microcluster-Associated Actomyosin Filaments during T Cell Activation

Advisor: Stephen Bunnell, Ph.D.

School of Dental Medicine

School of Dental Medicine

Order of Events

Welcome Greetings

Aruna Ramesh, B.D.S., M.S., D.M.D., *Associate Dean of Academic Affairs and Professor of Diagnostic Sciences—Oral and Maxillofacial Radiology*

Remarks

Nadeem Karimbux, D.M.D., M.M.Sc., *Dean*
Joseph F. Dudlek, D.M.D., *President of the Class of D2021*
Modar Qais Alroomi, D.M.D., *President of the Class of D12021*

Recognition of Teaching Awards

Presented by: Aruna Ramesh, B.D.S., M.S., D.M.D., *Associate Dean of Academic Affairs and Professor of Diagnostic Sciences—Oral and Maxillofacial Radiology*

THE PROVOST'S AWARD FOR OUTSTANDING TEACHING AND SERVICE

Recipient:

Patrick McGarry, D.M.D., M.S., *Assistant Professor and Director of Emergency Clinic, Department of Comprehensive Care*

THE DEAN'S AWARD FOR EXCELLENCE IN CLINICAL TEACHING

Recipient:

Marcelo Suzuki, D.D.S., *Maxillofacial Prosthodontist Division Head, Undergraduate Prosthodontics, and Associate Professor, Department of Prosthodontics*

THE DEAN'S AWARD FOR EXCELLENCE IN PRECLINICAL TEACHING

Recipient:

Francois Fisselier, D.D.S., D.M.D., *Assistant Professor, Department of Prosthodontics*

THE DEAN'S AWARD FOR EXCELLENCE IN BASIC SCIENCE TEACHING

Recipient:

Xinxin Sun, M.D., Ph.D., *Assistant Professor, Department of Medical Education, Tufts University School of Medicine*

Presentation of Faculty Emeriti

Presented by: Nadeem Karimbux, D.M.D., M.M.Sc., *Dean*

Recipients:

Roger B. Galburt, D.D.S., *Professor Emeritus, Department of Prosthodontics*

Kanchan M. Ganda, M.D., *Professor Emerita, Department of Comprehensive Care*

Noshir Mehta, B.D.S., M.D.S., D.M.D., F.I.C.S., F.A.C.D., *Professor Emeritus, Department of Public Health and Community Service*

Charles H. Rankin III, B.A., D.M.D., *Professor Emeritus, Department of Endodontics*

Huw Thomas, B.D.S., M.S., Ph.D., *Dean and Professor Emeritus, Department of Pediatric Dentistry*

Recognition of Honors and Awards

Aruna Ramesh, B.D.S., M.S., D.M.D., *Associate Dean of Academic Affairs and Professor of Diagnostic Sciences—Oral and Maxillofacial Radiology*

ACADEMIC EXCELLENCE AWARD

In Honor of Barbara Clark Kay D71

Recognition of Degree Candidates and Hooding

School of Dental Medicine

An Oath for the Dental Graduate

I solemnly pledge to devote my efforts to the care of my patients.

As a member of society, with special obligations, I will treat all patients without prejudice, incorporating the knowledge and skills instilled in me by my teachers.

I will practice dentistry in an ethical and professional manner.

I will hold in confidence all matters related to them.

I will not hesitate to call upon my colleagues when their knowledge and skills are needed.

I will make every effort to maintain, contribute to, and enhance the quality of the dental profession.

I will constantly keep in mind that the practice of dentistry is a true mingling of science, technology, and caring.

Veterinarian's Oath

Being admitted to the profession of veterinary medicine, I solemnly swear to use my scientific knowledge and skills for the benefit of society through the protection of animal health and welfare, the prevention and relief of animal suffering, the conservation of animal resources, the promotion of public health, and the advancement of medical knowledge.

I will practice my profession conscientiously, with dignity, and in keeping with the principles of veterinary medical ethics.

I accept as a lifelong obligation the continual improvement of my professional knowledge and competence.

Commencement 2021

Jonathan M. Tisch College of Civic Life

Jonathan M. Tisch College of Civic Life

Presidential Awards/2021 *Honos Civicus* Inductees

The only university-wide college of its kind, the Jonathan M. Tisch College of Civic Life studies and promotes the civic and political engagement of young people at Tufts University, in our democracy, and around the world.

Tisch College supports an undergraduate major in Civic Studies and offers innovative courses, programs, and partnerships, including the Tisch Scholars Program, the Tufts First-Year Global Programs, and the Tisch Summer Fellows Program. Tisch College houses several non-partisan, independent research organizations, including: the Center for Information & Research on Civic Learning and Engagement (CIRCLE), the Institute for Democracy & Higher Education (IDHE), the Metric Geometry and Gerrymandering Group (MGGG), the Center for State Policy Analysis (cSPA), and the Tisch College Community Research Center (TCRC).

Each year, Tisch College honors and publicly recognizes graduating students across the university who have excelled in civic engagement with the Presidential Award for Civic Life and induction into the *Honos Civicus* Society.
